## Testimonial

“I cannot recommend Ilana highly enough as a teacher. She has been pivotal in unlocking the potential in our daughter at a critical juncture of the 7+ entrance exams and successfully enabled her admission into top London schools such as Highgate and South Hampstead.

She was patient, perceptive and took the time to understand not just where and when but also why she was struggling.

With her fun and positive approach, she challenged, encouraged and over time, built up our daughter's confidence in her own ability, reigniting a love for both reading and writing for which both we and our daughter will remain grateful. TN
